INFORMATION CONCERNING FORWARD-LOOKING STATEMENTS

This press release contains "forward-looking statements," as defined in the Private Securities Litigation Reform Act of 1995. These statements, which express management's current views concerning future events or results, use words like "anticipate," "assume," "believe," "continue," "estimate," "expect," "future," "intend," "plan," "project" and similar terms, and future or conditional tense verbs like "could," "may," "might," "should," "will" and "would." For example, we may use forward-looking statements when addressing topics such as: the outcome of contingencies; the expected impact of acquisitions and dispositions; the impact of competition; pension obligations; the impact of foreign currency exchange rates; our effective tax rates; changes in our business strategies and methods of generating revenue; the development and performance of our services and products; changes in the composition or level of our revenues; our cost structure, dividend policy, cash flow and liquidity; future actions by regulators; and the impact of changes in accounting rules.

Forward-looking statements are subject to inherent risks and uncertainties. Factors that could cause actual results to differ materially from those expressed or implied in our forward-looking statements include, among other things:

- our ability to maintain adequate safeguards to protect the security of confidential, personal or
 proprietary information, and the potential for the improper disclosure or use of such information,
 whether due to human error, improper action by employees, vendors or third parties, or as a result of a
 cyberattack;
- the impact of competition on our business, including the impact of our corporate tax rate, which is higher than the tax rate of our international competitors;
- the impact of fluctuations in foreign currency exchange rates, particularly in light of the strength of the U.S. dollar against most other currencies worldwide;
- the impact on our global pension obligations of changes in discount rates and asset returns, as well as
 projected salary increases, mortality rates, demographics and inflation, and the impact of cash
 contributions required to be made to our global defined benefit pension plans due to changes in the
 funded status of those plans;
- our exposure to potential liabilities arising from errors and omissions claims against us;
- our exposure to potential civil remedies or criminal penalties if we fail to comply with foreign and U.S. laws that are applicable in the domestic and international jurisdictions in which we operate;
- the extent to which we are able to retain existing clients and attract new business, and our ability to effectively incentivize and retain key employees;
- our ability to make acquisitions and dispositions and to integrate, and realize expected synergies, savings or benefits from, the businesses we acquire;
- our ability to successfully recover should we experience a disaster or other business continuity problem;
- the impact of changes in interest rates and deterioration of counterparty credit quality on our cash balances and the performance of our investment portfolios;
- the impact of potential rating agency actions on our cost of financing and ability to borrow, as well as on our operating costs and competitive position;
- changes in applicable tax or accounting requirements; and
- potential income statement effects from the application of FASB's ASC Topic No. 740 ("Income Taxes") regarding accounting treatment of uncertain tax benefits and valuation allowances, including the effect of any subsequent adjustments to the estimates we use in applying this accounting standard.

The factors identified above are not exhaustive. Marsh & McLennan Companies and its subsidiaries operate in a dynamic business environment in which new risks may emerge frequently. Accordingly, we caution readers not to place undue reliance on any forward-looking statements, which are based only on information currently available to us and speak only as of the dates on which they are made. The Company undertakes no obligation to update or revise any forward-looking statement to reflect events or circumstances arising after the date on which it is made. Further information concerning Marsh & McLennan Companies and its businesses, including information about factors that could materially affect our results of operations and financial condition, is contained in the Company's filings with the Securities and Exchange Commission, including the "Risk Factors" section and the "Management's Discussion and Analysis of Financial Condition and Results of Operations" section of our most recently filed Annual Report on Form 10-K.
